

SRE ELECTRIC CAMERA BIKE

Our fully electric camera bike grants you unprecedented filming freedom. Go wireless with remote cameras mounted front or back, seamlessly switching angles on the universal gyro-stabilized mounts. This nimble rig travels light, spans slow and fast paced action and captures indoors and outdoors.

SRE ELECTRIC CAMERA BIKE

FEATURES:

- ▶ Nimble footprint for precise maneuvers in tight spaces
- ▶ Ditch the limitations of combustion and explore indoor/outdoor fluidity with all-electric powertrain
- ▶ Safari's talented, SAG AMA Pro Riders uphold exacting standards on set
- ▶ Smooth acceleration to 100 mph for dramatic filming
- ▶ Silent operation preserves calm on set
